

CORN HOLE INSTRUCTIONS & USE

GENERAL RULES

Set up the boards at 2 opposing ends on a flat surface. The players must stand 15 to 25 feet from the board when tossing. This distance can be decided on based on the players' ages and abilities. Players must not distract or interfere with the player tossing the bean bag.

PLAYING THE GAME

The game can be played as singles or doubles.

Singles: Both players toss their bags from the same board. The first player tosses 1 bean bag and then the second player tosses 1 Bean bag. Continue this way until each player has tossed all 4 bean bags. When points have been counted, the players switch turns and change ends, and toss again for the next round.

Doubles: 4 players are split into 2 teams. One member of each team tosses from one board, and the other 2 team member pitch from the second board. 1 member of the first team tosses 1 bean bag and 1 member of the second team tosses 1 bean bag from the same side of the court, continue in this manner until both players have tossed all 4 bean bags. When points are counted, the teams at the opposite end of the court toss the bean bags with the player from team number 2 tossing first. The points are counted again and the game continues to the next round with the teams switching turns and changing ends.

SCORING POINTS

A bean bag that falls completely into the target hole will earn 3 points.

A bean bag that lands anywhere else on the board will earn 1 point.

A bean bag that is knocked into the target hole by another bean bag earns 3 points. If a bean bag is knocked from the board by another bean bag loses its points.

If a player's bean bag falls into the target hole and an opponent's bean bag falls into the target hole, neither bean bag earns points.

Only one team can earn points in a round- if the first team scores 6 points and the second team scores 10 points, the second team receives 4 points and the first team scores 0 points.

Subtract the lower score from the higher score to calculate the final score for that round.

WINNING THE GAME

A game is won when the first player or team reaches 21 points in a round (after both teams have tossed their bags). In the event where the scores are even, the game plays "sudden death" and the first player or team to reach 3 points more than the opposing player or team, wins the game.

A round is completed when all the bean bags have been tossed by both players or teams.

WARNING

This is not a child's toy. Adult assembly required. Adult supervision is recommended during use.
